

Tennessee Volleyball Association presents

Setter Specialty Camp

Setter Specialty Camp

The Setter Specialty Camp is designed as an intensive training opportunity for intermediate to advanced level volleyball players looking to improve their setting skills.

The camp will be high repetition setter training on hand position & release, footwork, jump setting and offensive systems. Campers will also study the art of setting from an academic standpoint including- set calling, in-game changes, leadership characteristics and more. Advanced skills such as eye-checking, jump-setting and attacking the 2nd ball will also be part of the course.

Since 2011, this camp has produced some of the top-level club & varsity level setters in the State. If you are serious about setting at the collegiate level, you will not want to miss this camp.
